

TECHNICAL DATA SHEET

BRILLIANT™ Wetcleaning Detergent

Wetcleaning Detergent

PRODUCT OVERVIEW

BRILLIANT™ Wetcleaning Detergent is an effective all temperature detergent suitable for all types of fabrics, maintaining its performance regardless of the water hardness conditions. It is easily dispersed and dissolves immediately into solution.

BRILLIANT™ Wetcleaning Detergent is low foaming, delivering superior grease and soil removal. It is residue free and will not clog fabric pores. This means the absorbency and softness of fabrics are enhanced.

BRILLIANT™ Wetcleaning Detergent's advanced colour-stabilization formula ensures that colours stay vibrant and prevents poor colourfast dyes from transferring onto other garments.

BRILLIANT™ Wetcleaning Detergent extends the life of the fabric by protecting delicate fibers from pilling, wools from felting and shrinking during the wetcleaning process.

PRODUCT SPECIFICATIONS

Appearance:	Clear slightly green to amber tint
Odour:	Light citrus fragrance
Specific Gravity:	1.02 g/ml
Viscosity:	600-1000 cps @ 22°C
pH:	9.5 +/- 0.5

PRODUCT USAGE

Designed for use in purpose built professional wetcleaning equipment.

Recommended dosage: 4.0 ml/L - 6.0 ml/L of water in the drum. (0.5 oz. - 0.75 oz. per gallon of water in the drum.)

Recommendation: start at the lower end and experiment with incremental increases. Local conditions, preferences and water hardness will vary the final dose.

Can be used on wool and gentle washing applications.

SHELF LIFE & STORAGE

Shelf life of 5 years when in unopened containers.
Store at temperatures between 10°C - 40°C.

PACKAGING

- 4L Sample size jug with a handle
- 20L Standard cube HDPE Pail
- 60L Natural HDPE drum with an easy grip handle

For use in Miele brand and other qualified professional wetcleaning equipment.
